State House Undergoing Renovation, Preparatory to Legislative Session.

WILSON TO HAVE THE CALL

For Speakership - Bill to be Introduced Taxing Pullman Cars-Pure Food Law and a State Gauger of Oils Third District Wants the Fifth Congressman.

Special Dispatch to the Intelligencer. CHARLESTON, W. Va., Dec. 30.-The statehouse, during the days pre-ceding the sitting of the legislature of 1991, is undergoing a general renova-tion and presents a lively appearance. The senate chamber and house of delegates and committee rooms are being fitted up and placed in order for what promises to be the busiest and most important session of the legislature ever convened in the great Mountain State. It is expected that this week will witness the arrival in the Capital City of many of the delegates and an army of the third house and in their wake will follow candidates for various political plums which will be distributed.

Among other bills discussed for pas age by this legislature are those taxing the Pullman cars, which derive such immense revenues from the people of this commonwealth and do not pay a cent of taxes, making dogs property, that in the event of the theft of a valuable dog, the thief can be indicted for larceny, as in many of the states, a pure food law, and a law providing for a state guager, in order to protect the oil

seems to have the call around the various hotel corridors for the speakership, at any rate you want to keep your eye on the young Randolph county statesman, for it looks very much as if he would wield the speaker's gavel, but then there are "others," in the language of the day.
Discussing the fifth congressman,

which West Virginia will be entitled under the reapportionment, there is a widesweard sentiment that the Fifth district should be cut off the Third district, for the reasons that it is the largest in point of population, area, wealth and many other reasons.

FINANCIAL AND COMMERCIAL. SOME ACTIVE BUYING.

soc. Government bonds firm. State bonds inactive. Railroad bonds irregular.

Last night New York showed more symptoms of alarm over the rumors of financial difficulties in London than London Itself had done. This morning the New York market gave about fifteen minutes of active buying to overcome the rather sharp declines in the international stocks which had resulted from the unsettled condition of affairs in London growing out of the announcement of actual fallures resulting from the gamble in west Australians and their subsequent slump. The lower prices here seemed an attraction in themselves, and the aggressively sustained advance in St. Paul on renewed reports of the entry of J. J. Hill into an active share in the management of the company and of alliances with other northwestern railroads was a stimulating influence throughout the whole list. The buying of St. Paul itself was on a very large scale and the price rose to 107, leaving the previous record price far behind. The market sole of a little before the banks, the expansion in loans being more than provided for by the increase in reserves of nearly \$6,000,000, which was considerably more than was expected. The principal strength of the market was in high grade railroad stocks. The high priced members, of the anthracite group were conspicuous.

Wheat Buoyant; Other Markets Rallied in Sympathy.

CHICAGO—Wheat was a buoyant market to-duy, under the stimulus of higher northwest receipts and stubborn cables, May closing 1%62c over yesterday. Other markets railled in sympathy, corn closing 1%6%c, and closed 1%6%c.

The protein market sympathy can an effert was more with board of trade, wheat displayed an affert was more speculative business than during the whole session of any other day this week. The first symptoms of buoyancy and strength brought back from the alluring stock market many deserters from the grain pit, and even added new adherents. May wheat opened unchanged at 73%c, but quickly responded to buying orders from all sides of the pit. Exporters wanted it, domestic interests bid for it and shorts, who were in the majority, clamored for it.

75%. The foundation of the market's 75%c. The foundation of the market's strength lay in the recent stubborn firmness of foreign markets and, to a greater degree, in the falling off in northwestern receipts. The week's receipts at Minneapolis, Duluth and Chicago aggregated 1,757 cars, 1,025 cars less than the previous week, and 1,507 cars under the receipts at these points the corresponding week a year ago. To-day's receipts were 316 cars, against 640 cars last week, and 441 cars a year ago. Of these Chicago reported 125 cars, cleven of which were contract grade. These figures served as a basis for the assertion that Northwestern receipts had at last entered upon a prolonged reduction which would finally substantiate the government report that less than \$5,00,000 bushels had been raised in the three great spring wheat states of the northwest. Primary receipts were 445,000 bushels, compared with 420,000 bushels a year ago. Exporters reported twenty-five loads taken. Scaboard clearances in wheat and flour were equal to 130,000 bushels. Corn was fairly, active and firm, but owed most of its strength to the substantial rise in wheat. Moderate receipts, 349 cars here, small country offerings and a shipping demand which continued in the face of the advance in values were contributary factors. Some heavy short lines were substantially strength lay in the recent stubborn

NEW YORK—As usual for a Saturday half holiday business in the local metal market was very slack. Demand as has been the case all week, was confined chiedly to meeting immediate requirements, as speculators were inclined to wait until after the holiday season is over. General sentiment, however, was rather of a bearish nature. Domestic iron markets were dull and nominally quoted at \$9.50@10.50 for pig iron warrants; northern foundry \$14.50@15.50 might for southern foundry \$14.50@15.75 and soft foundry \$13.00@15.75. The ruled slow, but steady at \$25.90@27.20; copper quiet at \$17.00 for Lake Superior and \$16.62% for casting and electrolytic.
